

% length predominance of segments on right antennae 37.239

% width predominance of segments on right antennae 195.215

Head measurements

length (height) 67,16 % for left side
width 17,135 % for right parts

Sensillas (legs area)

length 113,03 % for right side
width 143,011 % for right side

Front legs

length 68,1105 % for left side
width 86,816 % for right side

Middle legs

length 131,945 % for right side
width 37,464 % for right side

Hind legs

length 102,002 % for right side
width 54,906 % for right side

Cercuses

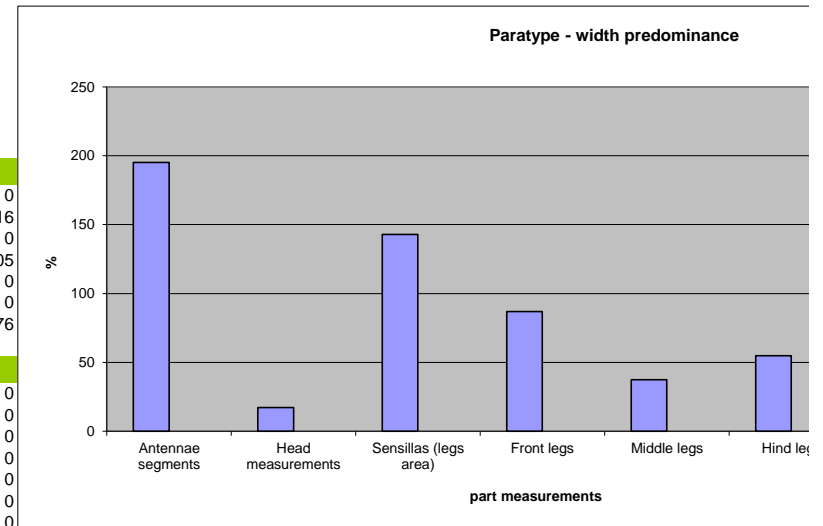

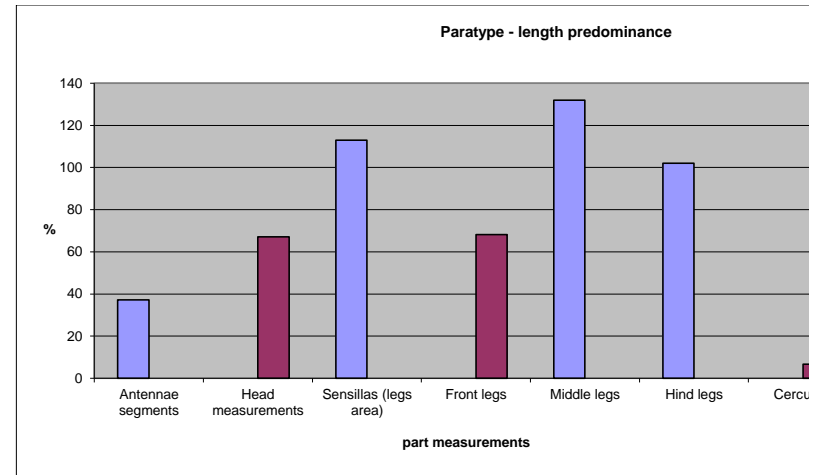

length 6,76 % for left side
width 16,059 % for right side

Paratype (length)

	% predominance for right side	% predominance for left side
